# What soldiers say ...

"What you send helps so much. I can't tell you how much it means to my men to know we are well thought of."

Lt. Wright

"I will tell you your packages are exactly what we need right now. Since the new troops have rotated in we have suffered many losses to the units here ...

Sometimes it's the only way to escape the everyday stress and fatigue that haunts us. The soldiers here wanted me to send a special thank you to everyone involved in the process. We are very grateful for you and everyone involved. We are very grateful for you and everyone who support us and are very proud to serve this great nation and its citizens."

Sgt. Joseph
